

December 7 2018

NextSuite 6 (VCL), v6.3.0

[Release Article](#)

- **added** Delphi Rio 10.3 support.

NextGrid v6.3.0

- **added** `SlideSelectionFrameWidth` property to `Slides (TNxSlidesGridView6)` view. Default value is as always 2, but it can be changed. (Topic [5318](#)).
- **added** `OnInplaceEditBounds` event that include **var** `EditRect` parameter that can be used to adjust bounds of edit component before editing begins.
- **added** `AlternatingRowColorOptions` property. For now it include 1 `Boolean` property `IncludeInactiveRows` (default True).
- **fixed** Access violation when adding a color column. (Topic [5313](#)).

NextInspector v6.3.0

- **fixed** Bug with `SetFloatValue` property in `TNxDateInspectorNode6` class.

NextStandard 6

- **added** 3 different selections modes in `TNxDatePicker6` component. User can now switch current month and year after click on title (header) in calendar inside component.
 - **added** New event `OnCustomDrawDate` in `TNxDatePicker6` component. Can be used for additional drawing (e.g. drawing indicators or placing small image).
 - **added** Property `TagStyle` in `TNxTagEdit6`. Specifies shape of tags (i.e. rectangle or rounded rectangle).
 - **added** 2 new demos for `TNxTagEdit6` component in the Demos sub-folder.
-

October 28 2018

NextSuite 6 (VCL), v6.2.5

[Release Article](#)

Next Standard 6

- **added** `SelectionDateRange` property in `TNxDatePicker6` component. Can be

used to limit selection to past or future only dates.

NextGrid v6.2.5

- **added** `RightClickDeselect` property. When set to `False` (default `True`), multi-selected rows will not be deselected on right mouse click (for example when using `PopupMenu`).
 - **fixed** `slidesColor` argument in `OnGetSlideColor` event. (Topic [5311](#)).
-

September 23 2018

NextSuite 6 (VCL), v6.2.1

[Release Article](#)

NextGrid v6.2.1

- **fixed** `heLeftRight` value for `HomeEndBehaviour` property.
- **fixed** `TNxDateColumn6` in-place-editor access violation in earlier versions of Delphi.

NextInspector v6.2.1

- **fixed** Node with `ReadOnly` set to `True` now behaves like item in Delphi `ObjectInspector`. You can still select & copy value even if item is non-editable (read-only). (Topic [5306](#)).
 - **fixed** Problem when scrolling while In-place editor is visible.
-

August 11 2018

NextSuite 6 (VCL), v6.2.0

[Release Article](#)

Next Standard 6

- **added** `SelectionColor` and `SelectionTextColor` properties in `NxComboBox6` component.

NextGrid v6.2.0

- **added** `OnActivate` event and `Responsivewidth` property to all grid views. If `Responsivewidth` of view is set (Value > 0), grid will automatically switch to view.
- **added** `OnStyleText` event to `CheckBox` column.
- **added** Design-time "Quick properties" option for `showText` property of `CheckBox` column.
- **added** `LinesColor` property to the `Tree` column. Also `showLines` property is now exposed in "Quick properties" panel.
- **fixed** Bug with adding child rows into already collapsed parent row. (Topic/post [4511/112](#)).

NextCollection v6.2.0

- **added** `AutoSize` property in `TNxButton6` component.
 - **fixed** Display and usage of accelerator chars in `TNxButton6` and `TNxToolBar6` components (Topic [5298](#)).
-

July 5 2018

Next Suite 6 (VCL), v6.1.7

Release Article

NextGrid v6.1.7

- **added** `FindNext` method. Repeat last made search via `FindText` method.
- **added** `CaptionFont` and `ParentCaptionFont` properties for each bound in slides view.
- **added** `LastDescendant` property to `INxRow`. Returns last children in children hierarchy of the row. Existing `LastChildren` returns only own last children.
- **fixed** Stack-overflow problem in `SlidesView`.
- **fixed** Problem with `Position` in run-time after changing it in design-time. (Topic: [4717](#)).

NextDBGrid v6.1.7

- **fixed** Problem with multi-selection. (Topic: [4677](#))

Next Collection v6.1.7

NxTrack6

- **added** `OnCustomDrawTrack` event that triggers when track rectangle is painted

and `style` is set to `stUserDefined`.

- **added** `ThumbSize` property in `NextTrack6` that can also be used with `stUserDefined` style.
-

May 26 2018

Next Suite 6 (VCL), v6.1.5

[Release Article](#)

NextGrid v6.1.5

- **added** `FullExpand` and `FullCollapse` methods. They recursively expand/collapse (Set `Expand` property all rows).
- **fixed** Visual appearance of single disabled cells (CheckBoxes, Progress bars).
- **fixed** Scrolling bug after multi-selection with Shift key.

NextCollection v6.1.5

- **added** New component `TNxButtonSlider6`.
 - **fixed** `TImageIndex` design-time property editor for `TNxButton6` component.
-

Mar 19 2018

Next Suite 6 (VCL), v6.1.0

[Release Article](#)

NextGrid v6.1.0

- **added** `AlternatingRowColor` property and matching flag in `AppearanceOptions` property.
- **added** Pop-up option in Design-time editor to set `SortType` property of column to `stNone` and therefore disable sorting for column.
- **added** `ClearRow` method. Call `Revert` method on all cells in the row specified by index.
- **added** Header's `Caption` can be now easily renamed with F2 short-cut.
- **added** `FormatMask` property to `TNxDateColumn6`.
- **fixed** Handling enter key while insert row is selected.

Jan 14 2018

Next Suite 6 (VCL), v6.0.80

[Release Article](#)

NextGrid v6.0.70

- **added** `OnFooterCalculated` event. Includes both `ACol` (index of Column) parameter and `(var) Value` parameter. `OnCalculated` event of single Column is still included.

Next Inspector v6.0.40

- **added** `MarginColor` property.

Next Collection v6.0.40

- **added** New `TNxTrackBar6` component. Includes `Images` property for linking `TImageList` to values.

Nov 26 2017

Next Suite 6 (VCL), v6.0.70

[Release Article](#)

NextGrid v6.0.70

- **added** `NxRateColumn6` column type.
- **added** `aoBoldSelectedText` in `AppearanceOptions`.
- **added** `EditCharCase` property to `TNxTextColumn6`. Specifies `CharCase` property of editing control.
- **added** `FirstChild` and `LastChild` properties to row (`INxRow`).
- **added** `OnTextStyle` event for text based columns. Includes `(var)` parameters such as `FontColor`, `FontStyle`. The file `NextGrid6.pdf` in `Tips & Tricks` is updated.
- **added** `OnFooterMouseDown` event in `TNxGridView6` (both Report and Slides).
- **added** `OnGetHint` event in `TNxColumn6` (all column types). Include `(var) Text` parameter.

- **fixed** `SelectNone` method single-row selection bug.

Next Collection v6.0.30

- **added** `OnGlyphClick` event in `TNxFlipPanel6` component.
-

Aug 21 2017

Next Suite 6 (VCL), v6.0.65

[Release Article](#)

- **added** Support for Delphi 10.2 Tokyo & C++ Builder 10.2 Tokyo.

Next Standard 6

- **added** `OnContentScroll` event to `TNxScrollControl6` descendants.
- **added** `Tag` property to `TNxCheckEntry` class used by `TNxCheckComboBox6`.

Next Editors 6

- **added** New `TNxTimePicker6` component (*Beta*).
- **added** `WantReturns` property to `TNxCustomEdit6` class and descendants.

NextGrid v6.0.55

- **added** New column type `NxTimeColumn6` (*Beta*).
- **added** `ShowLines` property in `Tree` column.
- **added** `Shift` parameter in `SelectFirst` and `SelectLast` methods.
- **added** `ScrollToBottom` method.
- **added** `ShowTextFitHint` property added to `TNxMemoColumn6` and descendants.
- **changed** Improved design-time `SlidesEditor`.
- **fixed** Bugs & internal tweaks.

Next Collection v6.0.25

- **added** `GroupIndex` and `AllowAllUp` properties in `TNxToolButton6`.
-

May 1 2017

Next Suite 6 (VCL), v6.0.60

Release Article

Next Editors 6

- **added** `AutoComplete` and `AutoCompleteDelay` property to `NxComboBox6` component.

NextGrid v6.0.50

- **added** `AutoComplete` property to `NxComboBox` column.
- **added** `aoHintIndicators` in `AppearanceOptions` property. If set, cells with non-empty `Hint` property will be painted with red indicators.
- **added** `AddSiblingRow` method in `INxRow` and `AddSiblingRow` in `TNextGrid6`.
- **fixed** Drawing of Tree Column with `TImageList` assigned.
- **fixed** `InsertRow` method.

NextDBGrid v6.0.30

- **fixed** Resizing bug.

NextInspector v6.0.20

- **added** Property `VisibleCells` to node. Individual cells (`Caption`, `Value`) can be hidden with this property.
- **added** `Transparent` and `TransparentColor` properties in `TNxToolbarNodeButton`

Next Collection v6.0.20

- **added** Event `OnActiveChangeQuery` event in `NxNotebook6` (`NxPageControl6`) control. Include (`var`) `Accept` parameter used for preventing change of active page.
 - **added** `options` property.
 - **added** `poBoldActiveCaption` option inside this property. When set, active caption is rendered in bold font.
-

Jan 16 2017

Next Suite 6 (VCL), v6.0.55

NextEditors

- **added** `ItemsAlignment` property to `TNxComboBox6` component.
- **fixed** Bugs & internal tweaks.

NextGrid v6.0.45

- **added** `ItemsAlignment` property to `ComboBox` column.
- **added** Improvements to Columns Editor `Quick Properties` pane.
- **added** `Visible` property to `TNxSlideBound6`.

NextDBGrid v6.0.25

- **added** New type of column added: `TNxDBLookupColumn6`). It is located inside `Data` tab inside Columns Editor.
-

Nov 17 2016

Next Suite 6 (VCL), v6.0.50

[Release Article](#)

NextGrid v6.0.40

- **added** `OnCheckedQuery` event added to `CheckBox` Column. Include `var Accept` parameter that can be used to prevent change.
- **fixed** Bugs & internal tweaks.

Next Collection v6.0.20

- **added** New `TNxImage6` component.
 - **added** `BorderPen` property. Specifies `TPen` used to draw border around picture when component is focused.
 - **added** `Effects` property with effects such as drop-shadow, reflection etc.
 - **added** `EmptyCaption` property. Specifies text rendered when `Picture` property is not set.
 - **added** `TNxImage6` Demo in `Demos\Next Collection` sub-folder.
-

Oct 5 2016

Next Suite 6 (VCL), v6.0.45

[Release Article](#)

NextEditors

- **added** Validation support:
 - **added** OnValidate event.
 - **added** ValidationTriggers property. Set of: vtLeave, vtTyping, vtTextChanged.
 - **added** Validator property. Assign external INxValidator TComponent to do validation for you.
- **fixed** Missing NxMemo6 event declarations.

NextGrid v6.0.35

- **added** visible property for TNxCell6. When set to False, nearby visible column will occupy invisible column space (merged).
- **added** ClientRectToggle property in TNxTreeColumn6. User can click anywhere in cell to toggle Expanded property of row.
- **added** tsHidden value in ToggleButtonStyle property of tree column.
- **added** sorted as identifier for TNxColumns6.ItemBy property.
- **added** OnColumnMoveOver event added to TNxGridView6. Occurs while Column is being dragged.
- **added** InteractionMoveSelection property to TreeColumn. When set to False, toggling +/- buttons will not move selection.
- **added** Increment property to TNxNumberColumn6.
- **fixed** Bugs & internal tweaks.

Next Collection v6.0.15

- **added** TNxBarImageListImage control to TNextBar6.
- **added** DropDownMenu property to TNxBarButton6. When not nil, indicator (arrow is also visible).

Aug 17 2016

Next Suite 6 (VCL), v6.0.35 (8.2016)

[Release Article](#)

NextGrid v6.0.25

- **added** InteractionMoveSelection property to CheckBox & TrackBar columns. If False it prevents selection changing during mouse interaction (e.g. moving thumb on track bar).
- **added** ImageList property to TreeColumn.

- **added** `ImageIndex` property to `row`.
 - **fixed** `Columns.Delete` method decrementing internal `FColCount` twice.
-

Jul 15 2016

Next Suite 6 (VCL), v6.0.31 (7.2016)

NextGrid v6.0.23

- **added** `SwapRows` method.
 - **added** `OnRowExpandedChange` event.
 - **added** `Filter` property for `TNxCheckBoxColumn6`. Example values:
 - `True`
 - `False`
 - `!True, False`
 - **fixed** Bugs & internal tweaks.
-

Jun 14 2016

Next Suite 6 (VCL), v6.0.30 (6.2016)

- **added** Tips & Tricks sub-folder.

Next Standard

- **added** `U` (underscore) Tag to all Html rendering capable controls.
- **added** `Orientation` property in `TNxToolBar6`.

NextInspector v6.0.15

- **added** `CaptionTextRender` (`trPlainText`, `trHtml`) property.
- **added** `CaptionTextFitHint` property.
- **added** `StyleSheet` property in `TNxInspectorNode6`. Used if `CaptionTextRendered` set to `trHtml`.
- **added** `VerticalAlignment` property to `TNxCheckableInspectorNode6` (`CheckBox`, `RadioButton` items).
- **added** `ImagePlaceholder` property to `InspectorNode`. When `True`, `Caption` will still be indented even if `ImageIndex` is not set for this node.
- **added** Text-fit hint for `Value`.

- **fixed** Bugs & internal tweaks.

Please read history.txt file (located in same sub-folder) for list of earlier changes.
