- **added** `WantReturns` property to `TNxCustomEdit6` class and descendants.

#### NextGrid v6.0.55

- **added** New column type `NxTimeColumn6` (*Beta*).
- **added** `ShowLines` property in Tree column.
- **added** `Shift` parameter in `SelectFirst` and `SelectLast` methods.
- **added** `ScrollToBottom` method.
- **added** `ShowTextFitHint` property added to `TNxMemoColumn6` and descendants.
- **changed** Improved design-time `SlidesEditor`.
- **fixed** Bugs & internal tweaks.

#### Next Collection v6.0.25

- **added** `GroupIndex` and `AllowAllUp` properties in `TNxToolButton6`.
- 

## MAY 1 2017

### Next Suite 6 (VCL), v6.0.60

#### [Release Article](#)

#### Next Editors 6

- **added** `AutoComplete` and `AutoCompleteDelay` property to `NxComboBox6` component.

### **NextGrid v6.0.50**

- **added** `AutoComplete` property to `NxComboBox` column.
- **added** `aoHintIndicators` in `AppearanceOptions` property. If set, cells with non-empty `Hint` property will be painted with red indicators.
- **added** `AddSiblingRow` method in `INxRow` and `AddSiblingRow` in `TNextGrid6`.
- **fixed** Drawing of Tree Column with `TImageList` assigned.
- **fixed** `InsertRow` method.

### **NextDBGrid v6.0.30**

- **fixed** Resizing bug.

### **NextInspector v6.0.20**

- **added** Property `VisibleCells` to node. Individual cells (Caption, Value) can be hidden with this property.
- **added** `Transparent` and `TransparentColor` properties in `TNxToolbarNodeButton`

### **Next Collection v6.0.20**

- **added** Event `OnActiveChangeQuery` event in `NxNotebook6` (`NxPageControl6`) control. Include (`var`) `Accept` parameter used for preventing change of active page.
  - **added** `options` property.
    - **added** `poBoldActiveCaption` option inside this property. When set, active caption is rendered in bold font.
- 

## **JAN 16 2017**

### **Next Suite 6 (VCL), v6.0.55**

#### **NextEditors**

- **added** `ItemsAlignment` property to `TNxComboBox6` component.
- **fixed** Bugs & internal tweaks.

#### **NextGrid v6.0.45**

- **added** `ItemsAlignment` property to `ComboBox` column.
- **added** Improvements to Columns Editor `Quick Properties` pane.
- **added** `Visible` property to `TNxSlideBound6`.

### **NextDBGrid v6.0.25**

- **added** New type of column added: `TNxDBLookupColumn6`). It is located inside `Data` tab inside Columns Editor.
- 

## **NOV 17 2016**

### **Next Suite 6 (VCL), v6.0.50**

[Release Article](#)

### **NextGrid v6.0.40**

- **added** `OnCheckedQuery` event added to CheckBox Column. Include `var Accept` parameter that can be used to prevent change.
- **fixed** Bugs & internal tweaks.

### **Next Collection v6.0.20**

- **added** New `TNxImage6` component.
    - **added** `BorderPen` property. Specifies `TPen` used to draw border around picture when component is focused.
    - **added** `Effects` property with effects such as drop-shadow, reflection etc.
    - **added** `EmptyCaption` property. Specifies text rendered when `Picture` property is not set.
    - **added** `TNxImage6` Demo in `Demos\Next Collection` sub-folder.
- 

## **OCT 5 2016**

### **Next Suite 6 (VCL), v6.0.45**

[Release Article](#)

### **NextEditors**

- **added** Validation support:
  - **added** `OnValidate` event.
  - **added** `ValidationTriggers` property. Set of: `vtLeave`, `vtTyping`, `vtTextChanged`.
  - **added** `Validator` property. Assign external `INxValidator` `TComponent` to

do validation for you.

- **fixed** Missing NxMemo6 event declarations.

#### **NextGrid v6.0.35**

- **added** `Visible` property for `TNxCell6`. When set to `False`, nearby visible column will occupy invisible column space (merged).
- **added** `ClientRectToggle` property in `TNxTreeColumn6`. User can click anywhere in cell to toggle `Expanded` property of row.
- **added** `tsHidden` value in `ToggleButtonStyle` property of tree column.
- **added** `sorted` as identifier for `TNxColumns6.ItemBy` property.
- **added** `OnColumnMoveOver` event added to `TNxGridView6`. Occurs while Column is being dragged.
- **added** `InteractionMoveSelection` property to `TreeColumn`. When set to `False`, toggling +/- buttons will not move selection.
- **added** `Increment` property to `TNxNumberColumn6`.
- **fixed** Bugs & internal tweaks.

#### **Next Collection v6.0.15**

- **added** `TNxBarItemListImage` control to `TNextBar6`.
- **added** `DropDownMenu` property to `TNxBarButton6`. When not `nil`, indicator (arrow is also visible).

---

## **AUG 17 2016**

### **Next Suite 6 (VCL), v6.0.35 (8.2016)**

[Release Article](#)

#### **NextGrid v6.0.25**

- **added** `InteractionMoveSelection` property to `CheckBox` & `TrackBar` columns. If `False` it prevents selection changing during mouse interaction (e.g. moving thumb on track bar).
  - **added** `ImageList` property to `TreeColumn`.
  - **added** `ImageIndex` property to row.
  - **fixed** `Columns.Delete` method decrementing internal `FColCount` twice.
-

## JUL 15 2016

### Next Suite 6 (VCL), v6.0.31 (7.2016)

#### NextGrid v6.0.23

- **added** `SwapRows` method.
  - **added** `OnRowExpandedChange` event.
  - **added** `Filter` property for `TNxCheckBoxColumn6`. Example values:
    - `True`
    - `False`
    - `!True, False`
  - **fixed** Bugs & internal tweaks.
- 

## JUN 14 2016

### Next Suite 6 (VCL), v6.0.30 (6.2016)

- **added** Tips & Tricks sub-folder.

#### Next Standard

- **added** `U` (underscore) Tag to all Html rendering capable controls.
- **added** `Orientation` property in `TNxToolBar6`.

#### NextInspector v6.0.15

- **added** `CaptionTextRender` (`trPlainText`, `trHtml`) property.
  - **added** `CaptionTextFitHint` property.
  - **added** `StyleSheet` property in `TNxInspectorNode6`. Used if `CaptionTextRendered` set to `trHtml`.
  - **added** `VerticalAlignment` property to `TNxCheckableInspectorNode6` (`CheckBox`, `RadioButton` items).
  - **added** `ImagePlaceholder` property to `InspectorNode`. When `True`, `Caption` will still be indented even if `ImageIndex` is not set for this node.
  - **added** Text-fit hint for `Value`.
  - **fixed** Bugs & internal tweaks.
- 

Please read `history.txt` file (located in same sub-folder) for list of earlier changes.
