

September 2018

NextSuite 6 (VCL), v6.2.1

[Release Article](#)

NextGrid v6.2.1

- **fixed** `heLeftRight` value for `HomeEndBehaviour` property.
- **fixed** `TNxDateColumn6` in-place-editor access violation in earlier versions of Delphi.

NextInspector v6.2.1

- **fixed** Node with `ReadOnly` set to `True` now behaves like item in Delphi `ObjectInspector`. You can still select & copy value even if item is non-editable (read-only). (Topic [5306](#)).
 - **fixed** Problem when scrolling while In-place editor is visible.
-

August 11 2018

NextSuite 6 (VCL), v6.2.0

[Release Article](#)

Next Standard 6

- **added** `SelectionColor` and `SelectionTextColor` properties in `NxComboBox6` component.

NextGrid v6.2.0

- **added** `OnActivate` event and `ResponsivenessWidth` property to all grid views. If `ResponsivenessWidth` of view is set (Value > 0), grid will automatically switch to view.
- **added** `OnStyleText` event to `CheckBox` column.
- **added** Design-time "Quick properties" option for `showText` property of `CheckBox` column.
- **added** `LinesColor` property to the `Tree` column. Also `showLines` property is now exposed in "Quick properties" panel.
- **fixed** Bug with adding child rows into already collapsed parent row. (Topic/post [4511/112](#)).

NextCollection v6.2.0

- **added** `AutoSize` property in `TNxButton6` component.
 - **fixed** Display and usage of accelerator chars in `TNxButton6` and `TNxToolBar6` components (Topic [5298](#)).
-

July 5 2018

Next Suite 6 (VCL), v6.1.7

[Release Article](#)

NextGrid v6.1.7

- **added** `FindNext` method. Repeat last made search via `FindText` method.
- **added** `CaptionFont` and `ParentCaptionFont` properties for each bound in slides view.
- **added** `LastDescendant` property to `INxRow`. Returns last children in children hierarchy of the row. Existing `LastChildren` returns only own last children.
- **fixed** Stack-overflow problem in `SlidesView`.
- **fixed** Problem with `Position` in run-time after changing it in design-time. (Topic: [4717](#)).

NextDBGrid v6.1.7

- **fixed** Problem with multi-selection. (Topic: [4677](#))

Next Collection v6.1.7

NxTrack6

- **added** `OnCustomDrawTrack` event that triggers when track rectangle is painted and `Style` is set to `stUserDefined`.
 - **added** `ThumbSize` property in `NextTrack6` that can also be used with `stUserDefined` `Style`.
-

May 26 2018

Next Suite 6 (VCL), v6.1.5

[Release Article](#)

NextGrid v6.1.5

- **added** `FullExpand` and `FullCollapse` methods. They recursively expand/collapse (Set `Expand` property all rows).
- **fixed** Visual appearance of single disabled cells (CheckBoxes, Progress bars).
- **fixed** Scrolling bug after multi-selection with Shift key.

NextCollection v6.1.5

- **added** New component `TNxButtonSlider6`.
 - **fixed** `TImageIndex` design-time property editor for `TNxButton6` component.
-

Mar 19 2018

Next Suite 6 (VCL), v6.1.0

[Release Article](#)

NextGrid v6.1.0

- **added** `AlternatingRowColor` property and matching flag in `AppearanceOptions` property.
 - **added** Pop-up option in Design-time editor to set `SortType` property of column to `stNone` and therefore disable sorting for column.
 - **added** `ClearRow` method. Call `Revert` method on all cells in the row specified by index.
 - **added** Header's `Caption` can be now easily renamed with F2 short-cut.
 - **added** `FormatMask` property to `TNxDateColumn6`.
 - **fixed** Handling enter key while insert row is selected.
-

Jan 14 2018

Next Suite 6 (VCL), v6.0.80

[Release Article](#)

NextGrid v6.0.70

- **added** `OnFooterCalculated` event. Includes both `ACol` (index of Column) parameter and (var) `Value` parameter. `OnCalculated` event of single Column is

still included.

Next Inspector v6.0.40

- **added** `MarginColor` property.

Next Collection v6.0.40

- **added** New `TNxTrackBar6` component. Includes `Images` property for linking `TImageList` to values.
-

Nov 26 2017

Next Suite 6 (VCL), v6.0.70

[Release Article](#)

NextGrid v6.0.70

- **added** `NxRateColumn6` column type.
- **added** `aoBoldSelectedText` in `AppearanceOptions`.
- **added** `EditCharCase` property to `TNxTextColumn6`. Specifies `CharCase` property of editing control.
- **added** `FirstChild` and `LastChild` properties to row (`INxRow`).
- **added** `onTextStyle` event for text based columns. Includes (`var`) parameters such as `FontColor`, `FontStyle`. The file `NextGrid6.pdf` in `Tips & Tricks` is updated.
- **added** `onFooterMouseDown` event in `TNxGridView6` (both Report and Slides).
- **added** `onGetHint` event in `TNxColumn6` (all column types). Include (`var`) `Text` parameter.
- **fixed** `SelectNone` method single-row selection bug.

Next Collection v6.0.30

- **added** `onGlyphClick` event in `TNxFlipPanel6` component.
-

Aug 21 2017

Next Suite 6 (VCL), v6.0.65

Release Article

- **added** Support for Delphi 10.2 Tokyo & C++ Builder 10.2 Tokyo.

Next Standard 6

- **added** `OnContentScroll` event to `TNxScrollControl6` descendants.
- **added** `Tag` property to `TNxCheckEntry` class used by `TNxCheckComboBox6`.

Next Editors 6

- **added** New `TNxTimePicker6` component (*Beta*).
- **added** `WantReturns` property to `TNxCustomEdit6` class and descendants.

NextGrid v6.0.55

- **added** New column type `NxTimeColumn6` (*Beta*).
- **added** `ShowLines` property in `Tree` column.
- **added** `Shift` parameter in `SelectFirst` and `SelectLast` methods.
- **added** `ScrollToBottom` method.
- **added** `ShowTextFitHint` property added to `TNxMemoColumn6` and descendants.
- **changed** Improved design-time `SlidesEditor`.
- **fixed** Bugs & internal tweaks.

Next Collection v6.0.25

- **added** `GroupIndex` and `AllowAllUp` properties in `TNxToolButton6`.
-

May 1 2017

Next Suite 6 (VCL), v6.0.60

Release Article

Next Editors 6

- **added** `AutoComplete` and `AutoCompleteDelay` property to `NxComboBox6` component.

NextGrid v6.0.50

- **added** `AutoComplete` property to `NxComboBox` column.
- **added** `aoHintIndicators` in `AppearanceOptions` property. If set, cells with non-empty `Hint` property will be painted with red indicators.

- **added** `AddSiblingRow` method in `INxRow` and `AddSiblingRow` in `TNextGrid6`.
- **fixed** Drawing of Tree Column with `TImageList` assigned.
- **fixed** `InsertRow` method.

NextDBGrid v6.0.30

- **fixed** Resizing bug.

NextInspector v6.0.20

- **added** Property `VisibleCells` to node. Individual cells (Caption, Value) can be hidden with this property.
- **added** `Transparent` and `TransparentColor` properties in `TNxToolbarNodeButton`

Next Collection v6.0.20

- **added** Event `OnActiveChangeQuery` event in `NxNotebook6` (`NxPageControl6`) control. Include (`var`) `Accept` parameter used for preventing change of active page.
 - **added** `Options` property.
 - **added** `poBoldActiveCaption` option inside this property. When set, active caption is rendered in bold font.
-

Jan 16 2017

Next Suite 6 (VCL), v6.0.55

NextEditors

- **added** `ItemsAlignment` property to `TNxComboBox6` component.
- **fixed** Bugs & internal tweaks.

NextGrid v6.0.45

- **added** `ItemsAlignment` property to `ComboBox` column.
- **added** Improvements to `Columns Editor Quick Properties` pane.
- **added** `Visible` property to `TNxSlideBound6`.

NextDBGrid v6.0.25

- **added** New type of column added: `TNxDBLookupColumn6`). It is located inside `Data` tab inside `Columns Editor`.

Nov 17 2016

Next Suite 6 (VCL), v6.0.50

[Release Article](#)

NextGrid v6.0.40

- **added** `OnCheckedQuery` event added to `CheckBox Column`. Include `var Accept` parameter that can be used to prevent change.
- **fixed** Bugs & internal tweaks.

Next Collection v6.0.20

- **added** New `TNxImage6` component.
 - **added** `BorderPen` property. Specifies `TPen` used to draw border around picture when component is focused.
 - **added** `Effects` property with effects such as drop-shadow, reflection etc.
 - **added** `EmptyCaption` property. Specifies text rendered when `Picture` property is not set.
 - **added** `TNxImage6` Demo in `Demos\Next Collection` sub-folder.

Oct 5 2016

Next Suite 6 (VCL), v6.0.45

[Release Article](#)

NextEditors

- **added** Validation support:
 - **added** `OnValidate` event.
 - **added** `ValidationTriggers` property. Set of: `vtLeave`, `vtTyping`, `vtTextChanged`.
 - **added** `Validator` property. Assign external `INxValidator TComponent` to do validation for you.
- **fixed** Missing `NxMemo6` event declarations.

NextGrid v6.0.35

- **added** `visible` property for `TNxCell6`. When set to `False`, nearby visible column will occupy invisible column space (merged).
- **added** `ClientRectToggle` property in `TNxTreeColumn6`. User can click anywhere in cell to toggle `Expanded` property of row.
- **added** `tsHidden` value in `ToggleButtonStyle` property of tree column.
- **added** `sorted` as identifier for `TNxColumns6.ItemBy` property.
- **added** `OnColumnMoveOver` event added to `TNxGridView6`. Occurs while Column is being dragged.
- **added** `InteractionMoveSelection` property to `TreeColumn`. When set to `False`, toggling +/- buttons will not move selection.
- **added** `Increment` property to `TNxNumberColumn6`.
- **fixed** Bugs & internal tweaks.

Next Collection v6.0.15

- **added** `TNxBarImageListImage` control to `TNextBar6`.
- **added** `DropDownMenu` property to `TNxBarButton6`. When not `nil`, indicator (arrow is also visible).

Aug 17 2016

Next Suite 6 (VCL), v6.0.35 (8.2016)

[Release Article](#)

NextGrid v6.0.25

- **added** `InteractionMoveSelection` property to `CheckBox` & `TrackBar` columns. If `False` it prevents selection changing during mouse interaction (e.g. moving thumb on track bar).
- **added** `ImageList` property to `TreeColumn`.
- **added** `ImageIndex` property to row.
- **fixed** `Columns.Delete` method decrementing internal `FColCount` twice.

Jul 15 2016

Next Suite 6 (VCL), v6.0.31 (7.2016)

NextGrid v6.0.23

- **added** SwapRows method.
 - **added** OnRowExpandedChange event.
 - **added** Filter property for TNxCheckBoxColumn6. Example values:
 - True
 - False
 - !True,False
 - **fixed** Bugs & internal tweaks.
-

Jun 14 2016

Next Suite 6 (VCL), v6.0.30 (6.2016)

- **added** Tips & Tricks sub-folder.

Next Standard

- **added** U (underscore) Tag to all Html rendering capable controls.
- **added** Orientation property in TNxToolBar6.

NextInspector v6.0.15

- **added** CaptionTextRender (trPlainText, trHtml) property.
 - **added** CaptionTextFitHint property.
 - **added** StyleSheet property in TNxInspectorNode6. Used if CaptionTextRendered set to trHtml.
 - **added** VerticalAlignment property to TNxCheckableInspectorNode6 (CheckBox, RadioButton items).
 - **added** ImagePlaceholder property to InspectorNode. When True, Caption will still be indented even if ImageIndex is not set for this node.
 - **added** Text-fit hint for value.
 - **fixed** Bugs & internal tweaks.
-

Please read history.txt file (located in same sub-folder) for list of earlier changes.
